## UX/UI Designer

I view problems from a creative perspective, divide it, approach it with a simple solution. With a background in science, research and persistence play vital role in my designs. I also have A2 German proficiency and preparing for B1.

## EXPERIENCE

**UX Designer/ KAIZEN HAUS PVT. LTD**

July 2017 - Dec 2018

My responsibilities being collecting user stories, wireframing based on testing results, fabricating visual mockup while working closely with clients.

---

**Academic Assistant/ University Hohenheim**

Jan 2019 - Dec 2019

Independent research work, designing and setting up experiments, writing protocols and maintain reports.

## SUMMARY

I am a self-taught, enthusiastic person with a passion to design. I focus on the details of design while considering the emotions and requirements of user. Simple intuitive designs are my strengths and paper-pen prototyping helps me to see my thoughts becoming reality. I have an independent, structured and analytical way of working. I really enjoy painting and sewing in my free time, it keeps me creative and helps me see a different perspective of things.
