Work experience

Research Assistant (part-time) / *University of Hohenheim*
Dec 2020 - Present
I am working in collaboration with an Agratech group to develop a catalyst system for organic reactions based on natural resources.

UX Designer/ *Comida for Familias Inc. USA*
Apr 2020 - May 2021
Website redesign for the organisation and new mobile app development at a non-profit organization. Used applications like Google survey forms, Google Analytics, user testing and Miro for research. I worked with Figma for designing, collaborating, prototyping and presenting clickables.

UX Designer/ *Freelancer, Online*
Feb 2020 - Present
Took up projects such as wordpress website design, UX design for a mobile app in the edTech space, event ad designs for social media and others.

Research Assistant (part-time) / University of Hohenheim
Jul 2019 - Dec 2019
My duties included independent research, design and conduct experiments, prepare protocols and reports.

Certifications

- Visual Elements of User Interface Design
- Web Design: Strategy and Information Architecture
- Web Design: Wireframes to Prototypes
- Learn Figma - UI/UX Design Essential Training
- The Complete 2020 Web Development Bootcamp

Profile

https://www.behance.net/prernabhardwaj

https://www.linkedin.com/in/prerna-bhardwaj-1096051a1/

- I have the passion to know and the patience to learn.
- Degree in Chemistry with 8 publications and extensive experience in writing, reviewing, editing, and public presentations.
- Adept at planning protocols, following the process, and performing data-driven iterations.
- Independent and analytical design process along with ability to work as a team.
- Fluency in English with communication skills in German (B2).

My strong research background enables me to learn quickly and implement new concepts in the work environment.
